Antisemitic Prejudice in Serbia and Croatia

Tiril Ellingsen Thue, Department of History, University of Belgrade

ESR 10, WP4: Cultures of reaction: xenophobia, anti-Semitism, anti-migrant sentiment

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No. 765224

Theoretical Framework

Secondary antisemitism:

- “the refusal or rejection of remembrance of the unprecedented crimes which Germans committed during the Second World War” (Heni 2008)
- A form of soft core denial characterised by distortion and universalization of the Holocaust, projections of guilt, relativization, trivialization

Ideological model of scapegoating:

- Choice of scapegoat based on envious stereotyping “of groups that are viewed as having power and intent to cause widespread harm” (Glick 2005)

Perceived victimhood

- Competition for recognition of suffering: when those who perceive themselves as victimized do not feel sufficiently acknowledged, in contrast to Jews or the Holocaust as “the ultimate benchmark of victimhood”, antisemitic feelings may arise (Antoniou, Dinas & Kosmidis 2015)

Memory re-elaboration of fascist past. Re-elaboration of WWII and collective memory that is constructed will provide a certain degree of stigmatization towards fascist past which in turn provides positive or negative cultural opportunity structures for the presence of populism (Manucci 2019)

- Culpabilization – strong condemnation leads to high levels of stigma
- Heroization – strong condemnation leads to high levels of stigma, but not equal to culpabilization
- Cancellation – a way of avoiding responsibility, based on denial. Low level of stigma
- Victimization – a way of avoiding responsibility, based on denial. A form of alteration, allowing for alternate/revisionist narratives. Low level of stigma

Holocaust as *the* defining memory

- Memory appropriation in post-communist states – symbols and imagery of the Holocaust appropriated to memorialize another kind of suffering → communism (Subotić 2019)

Memory Appropriation

Memory Inversion – Serbia

- The Holocaust, its crimes and its images are directly appropriated in order to make space for the discussion of crimes of communism.
- The Holocaust is not denied – it is not even obviously trivialized – but it is only remembered heuristically, as a vehicle for remembering the crimes of communism.
- It is used to invert the suffering and victimization of the Holocaust's principal victims – the Jews – and instead represent other victims – the ethnic majority – as its primary targets.

Memory Divergence – Croatia

- The Holocaust is decoupled from other genocidal crimes committed during WWII in order to make the Holocaust a uniquely Nazi (that is, German) problem and absolve the local political community from participation in it.
- In this way the ethnic majority is also absolved from carrying out other racial and ethnic crimes against non-Jews that occurred under the shadow of the Holocaust. (Subotić 2019)

WWII
interpretations and
Holocaust
commemoration in
Yugoslavia

Brotherhood and unity

Good and progressive people of Yugoslavia who unitedly fought the Nazi and Fascist occupiers

No one nation to be singled out for the atrocities of WWII. Responsibility for war crimes, mass violence and genocide projected onto exogenous forces – primarily Nazi Germany

WWII interpretations and Holocaust Remembrance after Yugoslavia

Croatia

- National reconciliation between the Ustaša and Partisans
- Healing the divide between the black and red totalitarianisms
- Croatia as the victim of an alliance between Serbian paramilitary Četniks and the Communist Yugoslav Army
- NDH and Ustaša – a fight **for** Croatian statehood and independence **against** communism (Serbs)
- Holocaust remembrance – deflection of responsibility to Nazi Germany – “Holocaust Yes, Genocide No”
- Bleiburg as Croatia’s Holocaust

Serbia

- Rehabilitation of Četnik movement and other collaborators, delegitimization of Partisans
- Partisans and Četniks as anti-fascist patriotic movements – one from the right and one from the left
- “Demonstrate the suffering of the Serbian people via the Jews”
- Holocaust remembrance – Jews essentially only remembered in the context of as an appendage to the memorialization of Serbian suffering
- Jasenovac as Serbia’s Holocaust

NEW WORLD ORDER

Exodus: Jews flee Paris suburbs because of growing tide of antisemitism

- Do they know something we don't know? / They know why... / Mice know when to leave the sinking ship...that's how the old saying goes
- Karma is funny / They wouldn't have run if they weren't to blame / They terrorise the entire world, they are behind all the wars of the centuries, I think that the time has come where they have to pay for what they have done
- Free Palestine! / EXODUS? And what is happening in Palestine... we all know about the lobby owned by the Jews..We all know they pull the strings and we all know they are treated way better than they deserve
- Juden Raus! / That's how it should be... everyone should be in one place so the bastards are easier to kill ... fu*k their monster mother

TRUTH AGAINST LIES

JASENOVAC IS A COMMUNIST LIE, HOLOCAUST IS THE WORLD'S BIGGEST FRAUD, AND BLEIBURG IS THE REAL HOLOCAUST COMMITTED AGAINST THE CROATIAN PEOPLE!

Selected titles

There is a global Jewish war against non-Jews! The owners of all pharmaceutical corporations, media, banks, social media are also Jews!

Croatia will become a hot-spot! Global (Com)pact for Migration is a plan to destroy European nation states!

Judobolsheviks are preparing us for a totalitarian state!

The only fascism in the world is Zionist fascism!

- ❖ All in one place. Well done. Whoever is interested in the truth can find it in this text. Only the truth can save all the peoples of the former state who are victims of Goldstein and other Jewish political murderers and liars
- ❖ Bleiburg is the Holocaust and not Auschwitz or Jasenovac
- ❖ That's right! JASENOVAC was built and invented by JEWS AND COMMUNISTS
- ❖ A genocide or holocaust was committed on Bleiburg, that's why Jews make so much up when someone is looking for the truth. They use Jasenovac to present the Croatian people as genocidal to the world

Serbia

- I'm very hopeful for the future as we will see the destruction of the judea and israel within our lifetime but its tiring to not know when.
- The Jews and The Anglos laugh at the death of Europeans and especially European Christians.
- Jews at least destroy for their self-interest while Croatia destroys themselves and others for Jewish interest,
- Marxism is the core of communism, feminism and racism. It's a thought system created by Jews for one purpose only, which is to subvert host nations.

Croatia

- I'm not as radical as most /pol/acks regarding Jews, I don't really want them all dead and gassed, but I do want to see them explicitly banned from practicing law, politics, academic work or media work, since they've proven time and time again that they will inevitably use nepotism to monopolize all positions with tribesmen and then go full parasite on the host nation. If they don't like that, they're free to go to Israel. The medical doctors, dentists and middle class Jews are mostly harmless, just keep them out of positions of power and influence over the masses and you're set, no genocide needed.
- Israel shouldn't exist. It's on a stolen land and to this day they are still committing a genocide against palsetinians. Should we give gypsies a country to and hope they will leave but guess what? Neither jews or gypsies will never leave because they are both parasites and as parasites they need to have a host to feed on it.
- Though I don't think the Jews should be killed off, that was tried and failed; I do believe that they should all be:
 - a) deported to Israel with no exceptions
 - b) banned from participating in politics, finance, banking, media production or media distribution and academia anywhere that isn't Israel - and that Jewish works in any of those categories be banned and censored outside of Israel

They have their Jewish homeland, they need to fuck off back to it post haste.

JEWMERICA & GLOBOHOMO & ZOG

Croatia

- Jewmerica and Russia are two single greatest exporters of jewish filth, and kikes wouldn't have near the power they have now if there wasn't for Jewmerica and Russia, their prime breeding grounds
- Jews are a satanic force and there's no point in wasting time discussing what to do with them, killing them all is the only answer, discussion ends. But Americans...jewmericans...they are the REAL enemy, the ENABLERS of world jewry and they should be dealt with.

Death to ALL circumcised goyim on the planet. Simple

- its common misconception that "death to America" means death to whole american nation or something. Death to America means death to your vile, corrupt, warmongering jewish cock sucking government, what i believe many of your compatriots support too

Serbia

- Im tired of seeing jews and trannies paid to be on this board trying to demoralize people and hope no one is taking the bait.
- Ever since that war [WWII] we live in a world of globohomo zerg zog domination..Westerners are schizo goldfish herded by jews like the cattle they are.
- Americans are essentially Jews.
They cut baby dicks.
They worship shekels more than anything. If we're being honest, if you hate Jews, you have to hate America as well. There is nothing redeeming about America or Americans. I await the incoming Balkanization of the states with a rock hard erection.
Death to America.

Domestic narratives in Croatia

- Anti-Serbism
- Victimization narratives under communism / Yugoslavia / Serbia
- Projection / denial / relativization of Holocaust and WWII

Jewmerica is ZOG slave colony. ZOG was slaughtered in Croatia in WW2, where as Jewmerica and Serbs dies for the ZOG, with vitriol. Serbs love ZOG til this day and use "Croatsians were and are FASCIST" cry for help on a daily basis. As if being a fascist or a "nazi" is a bad thing? LMAO.

Serbs were always vocal about their worship of Russia and Putin - and we know about Putin's rabbi and how many demented kikes came out of Russia, all the (((oligarchs))) and Chabad faggots. Russia is probably worse, pound for pound, than Jewmerica when it comes to kikery. Death to Jewmerica, kill all jews.

We didn't side with hitler because we particularly loved him (or loved him at all), it was only because he kind of accepted the existence of independent croatian state. We would have sided with allies if they were for croatin independence. And it was very important for us because of serbian terror in the kingdom of yugoslavia. We didn't care about jews or anything, we only wanted croatian independence.

Croats are nationalist but not really well educated in the matter. Economics are really fucking socialist, our government is big and corrupt that doesn't care about Croats, they are cucks to our Jews(Serbs) and so on. As a people we are good, nationalist majority, but the politics is poisoned by the mentality of socialist Yugoslavia.

Domestic narratives Serbia

- Use of genocidal narratives from WWII for contemporary events and to accentuate own victimhood and suffering
 - "Serbs as Jews" and Serbs and Jews as brothers in suffering
 - Anti-Americanism and anti-imperialist narratives
→ Jews as controlling and orchestrating major events
- List of confirmed American, British, and other Western JEWS who orchestrated the economic collapse and downfall of Yugoslavia, creation of separatist states, bloody wars in Bosnia, Croatia, and Kosovo; demonization and bombing of Serbia, secession of Montenegro, and stealing of Kosovo. KNOW YOUR ENEMY.
 - Clinton and NATO rub hands like Jews since they can finally destabilize Serbia while using "muh genocidal Serbs" as an excuse -> 1999 BOMBING
 - Jews in Israel were against Nato bombing of Serbia and jews from Israel know and share the suffering that Serbs suffered in world war 2 in Jasenovac, and they know about the shit that muslim albanians did in Kosovo and metohija, Serb holy land.
 - Yes Croats committed Serb and Jew genocide over 1 000 000 000 serbs and over 150 000 jews in Jasenovac Whole Croatia is created on genocide
 - Novak Djokovic is a prime example of how us serbs are the victims of western imperialism, just like children trapped in Jasenovac, serbs are always the victims

Concluding remarks

European memory framework and resolutions: “European Day of Remembrance for the Victims of all Authoritarian and Totalitarian Regimes” and “European Conscience and Totalitarianism”

- Designed to reconcile the historical experiences of Eastern and Western Europe, but the equalization of fascist and communist legacies enables legitimization and symbolic rehabilitation of fascist movements and collaborators
- Communist past is framed as totalitarian and the crimes committed on both sides equalized

Antisemitic narratives not substantially different from other parts of Western Europe but are accommodated to the domestic narrative

- Spark with historical revisionist interpretations of the Holocaust and WWII
- Utilised in political narratives to further political needs and claims

Low levels of explicit and/or violent antisemitism in Serbia and Croatia

Online hate speech and extremism poses a significant threat

Requires further studying and monitoring

Thank you for your attention!
